PROSPECTUS

Danske Invest SICAV Prospectus January 2018

The CSSF issued the visa stamped Prospectus on January 23, 2018, which included the change of Investment Manager for some funds from Danske Capital AB to Danske Bank A/S and a change in Sub-Investment Advisor from "Blackhorse Asset Management Pte. Ltd" to "Waverton Investment Management Ltd." A shareholder notice was sent out to the relevant investors on December 22, 2017.

Danske Invest SICAV Prospectus July 2018

On June 21, 2018 the CSSF approved a revised Prospectus. This revised Prospectus is effective from July 2, 2018 except for certain changes, which apply from the dates indicated below. A list of the main changes is set as follows:

Changes to the General Part of the Prospectus

- **Clarification of certain terms with specific meanings**
 - The explanation of the term "business day" has been amended with a clarification that in the Fund Descriptions section, a "business day" shall be understood as any day that is a full business day for banks in the country indicated.
 - In relation to the term "regulated markets", it has been clarified that recently issued securities whose terms of issue include a commitment to apply for official listing on a regulated market within 12 months of issue are considered to be traded on a regulated market.
- **Credit rating process**
 - The section "General Investment Powers and Restrictions" has been updated with a new section on credit rating including information on the process of rating of securities. The inclusion of this section will not change the process of rating of securities and aims solely to provide information on such process.
- **Responsible Investment Policy**
 - The section "Responsible Investment Policy" has been updated. It has been clarified that the responsible investment policy's environmental, social and governance (ESG) principles are not integrated in the security selection process of funds from other provider than Danske Bank, unless otherwise stated in the relevant fund description. It has further been clarified that, besides the principles already referred to in the Prospectus, the following principles are taken into account in the security screening process: the UN-backed Principles for Responsible Investments (PRI), the UN Environmental Program Finance Initiative (UNEPFI), the Universal Declaration of Human Rights and the ILO and Declaration of Fundamental Principles of Rights at Work.
- **Changes to Risk descriptions**
 - The risk description of "Country risk – China" has been updated with references to "Shenzhen-Hong Kong Connect" which is a trading platform allowing foreign investors to access China A-shares listed on the Shenzhen Stock Exchange.
 - One new risk description has been added; "Reallocation risk". The reallocation risk is only relevant to the new fund "Multi Asset Inflation Strategy".

Directors' Report (continued)

● EU Benchmark Regulation

- A new paragraph to the Management Company section has been inserted under heading "Benchmarks" stating that:
 - administrators of benchmarks that are used for tracking or performance fee calculation must be registered with ESMA by January 1, 2020;
 - the Management Company has produced and maintains robust written plans setting out the actions that it will take if a benchmark materially changes or ceases to be provided, or if the benchmark's administrator loses its registration with ESMA.

Fund Specific Changes

- 1. Changed processing schedule of subscription, switch and redemption orders for the funds Aktiv Förmögenhetsförvaltning, Europa (SEK), Sverige, Sverige Europa, Sverige Fokus, Sverige Kort Ränta, Sverige Ränta, Sverige Real Ränta**
 - Currently, the net asset values of these funds are calculated on days, which are business days in both Luxembourg and Sweden (meaning that the net asset value is not calculated on days, which are business days in Sweden but not in Luxembourg). Cut-off for subscriptions, switches and redemptions are on the same day as the orders are processed. In order to facilitate calculation of net asset value and processing of orders on all days which are business days in Sweden, RBC, the fund's depository and fund administrator, has agreed to calculate the net asset values on all days when banks are opened in Sweden. The Prospectus has been updated to reflect this.
- 2. Changed processing schedule of subscription, switch and redemption orders for the fund Sverige Beta:**
 - Currently, subscription, switch and redemption orders are accepted on days ("cut-off days") which are business days in both Luxembourg and Sweden. As of the date of the new Prospectus, orders will be accepted on all days, which are business days in Sweden.
 - Currently, on the day following the cut-off day, the net asset value of this fund is calculated and orders are processed if such day is a business day in Luxembourg and also a trading day on the main stock exchanges in Sweden. In order to facilitate calculation of net asset value and processing of orders on all days, which are business days in Sweden, RBC, the fund's depository and fund administrator, has agreed to calculate the net asset values on all days that are business days in Sweden and the Prospectus has been updated to reflect this.
- 3. Clarification of processing schedule of subscription, switch and redemption orders for the funds Eastern Europe and Russia:**
 - In order to provide more precise information, it has been clarified that orders received and accepted by the registrar agent by 5:30 PM CET any business day in Luxembourg are ordinarily processed the following business day in Luxembourg that is also a trading day on the main stock exchanges in *Moscow* (rather than Russia). This clarification will not change the way orders are processed.
- 4. Changed processing schedule of subscription, switch and redemption orders for the fund Eastern Europe Absolute:**
 - The cut-off time (the time when orders must have been received by the registrar agent to be processed on the following business day) has been changed from 5:30 PM CET to 10:00 AM CET. This change is made to allow the Investment Manager sufficient time to prepare adjustments to the fund portfolio needed as a result of subscription, switch and redemption orders.
 - It has been clarified that such cut-off time occurs on business days in Luxembourg that is also a trading day on the main stock exchanges in the UK and Moscow. Due to the fact that a large part of the fund's investments are placed in Russian securities and that the derivatives used are traded on the main stock exchanges in the UK, it is not possible to obtain fair pricing on such securities and derivatives on days when the stock markets, where such securities are traded, are closed.
- 5. Changed processing schedule of subscription, switch and redemption orders for the funds US High Yield Bond:**
 - It has been clarified that subscription, switch and redemption orders will be accepted on days which are business days in Luxembourg and which also are trading days on the main stock exchanges in the USA. Such orders will ordinarily be processed on the following business day in Luxembourg and the current Prospectus text did not accurately reflect this fact.

DANSKE INVEST SICAV

Directors' Report (continued)

6. Changed processing schedule of subscription, switch and redemption orders for the funds Global Index, SRI Global:

- Currently, subscription, switch and redemption orders are accepted on days ("cut-off days") which are business days in both Luxembourg and Sweden and which also is a trading day on the main stock exchanges in the USA. Orders are currently processed on the day following a cut-off day, which is a business day in Luxembourg.
- As of the date of the new Prospectus, orders will be accepted on all days which are business days in Sweden and also a trading day on the main stock exchanges in the USA and orders will be processed the next days that is a business day in Sweden.
- The fact that orders are accepted on days that are trading days on the main stock exchanges in the USA was not accurately reflected in the current Prospectus, hence the Prospectus has been clarified in this respect.

7. Changes leverage information for the fund Eastern Europe Absolute:

- From August 1, 2018, the fund's expected leverage will be changed from 160-170% to 90-200%, the maximum expected leverage from 200% to 250%, the expected gross equity exposure from 200% to 300% and the total long equity exposure from 100% to 150%. The current levels will apply until July 31, 2018.

The purpose of this change is to increase the return potential, within the current VaR limits and while remaining market neutral and keeping low volatility.

8. Investment in China A-Shares via Shenzhen-Hong Kong Stock Connect for the funds China, Emerging and Frontier Markets, Global Emerging Markets, Global Emerging Markets Small Cap, Global StockPicking:

- For funds, which may gain exposure to China A-Shares, Shenzhen-Hong Kong Stock Connect has been added, beside the Shanghai-Hong Kong Stock Connect, as a possible trading route for the funds to get exposure to such shares. This will however not change the level of exposure these funds may have to China A-Shares and will not otherwise change the investment policy or strategy of the funds.

9. Removal of information on credit rating process from the funds Emerging Markets Debt Hard Currency, Euro High Yield Bond, European Corporate Sustainable Bond, Global Corporate Bonds, Global Inflation linked Bond, Global Inflation Linked Bond Short Duration, Nordic Corporate Bond and US High Yield Bond:

- A new section with information on the process for selecting credit rated securities has been inserted in the section "General Investment Powers and Restrictions". For clarification, this will not change the process for how rated securities are selected.

10. Change of hurdle rates used when calculating performance fees of the funds Eastern Europe Absolute, Europe Long-Short Dynamic, Europe Long-Short Dynamic Plus

- The hurdle rates used to calculate performance fees will change as follows on the dates indicated in the table:

| Class currency | Until July 31, 2018 | As from August 1, 2018 |
|----------------|--|---|
| CHF | Swiss Reference Rate Swiss Average Rate 1 W calculated by SIX Swiss Exchange | Swiss Average Rate O/N (SSARON)* |
| EUR | European Central Bank's lending rate (repo rate) | EMMI EURO Overnight Index Average (EONIA)* |
| NOK | Norges Bank's sight deposit rate (repo rate) | Norwegian Overnight Weighted Average Rate (NOWA)* |
| SEK | Sveriges Riksbank's lending rate (repo rate) | Stockholm Interbank Offered Rate T/N (STIB1D)* |
| USD | US Federal Fund's Target Rate | US Federal Funds effective rate (FEDLO1)* |

*Bloomberg ticker

- At the same time as the new hurdle rates will become effective, the Board of Directors has decided – until further notice – to introduce a zero percentage floor for currencies, where the actual rate would be negative. This will have a positive impact (less performance fees charged) on currencies where the actual rate is negative and a zero impact on currencies where the actual rate is positive.

11. New information on benchmark administrators

- For the funds Global Index and SRI Global, a statement that the benchmark administrator is ESMA registered, has been inserted.
- For the fund Sverige Beta, a statement that the benchmark administrator is not yet ESMA registered, has been inserted.

a) Valuation of investments in portfolio

(i) The value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.

NOTE 3 – SIGNIFICANT ACCOUNTING POLICIES (continued)

d) Cost of investment securities

The acquisition cost of investment securities in each Fund expressed in currencies other than the currency of denomination is converted to the base currency at the exchange rates prevailing at the purchase date.

e) Income/charges from investments

Income on long securities and dividends on securities are recognized net of withholding tax quoted at ex-date, to the extent information thereon is reasonably available to the Fund. Bank interest, interest on fixed income securities and interest on Contracts for difference are accrued for each net asset valuation.

f) Forward foreign exchange contracts

Profit and loss arising from un-matured forward foreign exchange contracts are determined on the basis of the applicable forward exchange rates at the valuation date, and are recorded in the combined statement of net assets. Realised profit or loss on forward foreign exchange contracts are recorded in the statement of operations and changes in net assets.

g) Formation expenses

The costs and expenses incurred in connection with the formation of the Fund and the initial issue of Shares by the Fund, all legal and printing costs, certain launch expenses (including advertising costs) and preliminary expenses have been amortized over a five year period. The formation expenses have been completely amortized.

h) Swing Pricing

The investment manager needs to undertake transactions in order to maintain the desired asset allocation as a result of subscriptions or redemptions, which may generate additional costs for the Fund and its shareholders. As a consequence, in order to protect the existing investors' interest, from these capital movements, when net capital movements exceed a threshold pre-defined by the Board of Directors of the Fund, the valuation of the underlying securities is adjusted on a line by line basis to reflect these costs. This adjustment reflects the estimated tax and dealing costs that may be incurred by the Fund as a result of these transactions, and the estimated bid-offer spread of the assets in which the Fund invests. A periodical review is undertaken in order to verify the appropriateness of the swing factor being applied.

i) Realised loss on Contract For Difference ("CFD")

Realised profit/loss on CFDs are computed on the basis of average cost, and recorded in the statement of operations and changes in net assets.

j) Total Return Swap

The total return swap are valued at fair market value as determined in good faith pursuant to the procedures established by the Board of Directors.

k) Combined financial statements of the Fund

The combined financial statements represent the sum of the financial statements of each Funds after conversion. The consolidated financial statements are presented in EUR, using the exchange rate in effect as at June 29, 2018. The difference between the opening net assets stated at the rate of exchange used for translation into EUR as of June 29, 2018 and December 29, 2017 is shown as currency translation in the Consolidated Statement of Operations and Changes in Net Assets.

NOTE 4 – MANAGEMENT FEES AND PERFORMANCE FEES

Management fees

The Management Company receives the management fee from the net assets of each class, payable quarterly in arrears.

Performance fees

The Investment Manager is also entitled to receive a performance fee from the Funds Danske Invest SICAV - Eastern Europe Absolute, Danske Invest SICAV - Europe Long-Short Dynamic and Danske Invest SICAV - Europe Long-Short Dynamic Plus calculated, accrued and locked on each Valuation Day and paid annually in arrears on or after the last Valuation Day in each financial year. If a performance fee is payable in relation to a relevant Class, the performance fee shall be an amount equal to 20% of the Outperformance.

Between two successive calculation dates the Outperformance will be calculated for each relevant Class as the Net Asset Value per Share before additional performance fee accruals minus the higher of:

- The Net Asset Value per Share at the end of the immediately preceding Valuation Day, accrued with the Hurdle Rate (as defined below) and

- The High Water Mark Net Asset Value (as defined below) accrued with the Hurdle Rate (as defined below).

The Hurdle Rate is the Risk-free Rate on a pro rate temporis basis up to the relevant calculation date.

Risk-free Rate EUR: Defined as the European Central Bank's lending rate (the repo rate);

Risk-free Rate NOK: Defined as Norges Bank's sight deposit rate (the repo rate);

Risk-free Rate SEK: Defined as Sveriges Riksbank's lending rate (the repo rate);

Risk-free Rate CHF: Defined as the Swiss Reference Rate Swiss Average Rate 1 W calculated by SIX Swiss Exchange;

Risk-free Rate USD: Defined as the US Federal Fund's Target Rate.

The High Water Mark Net Asset Value per Share is defined as the greater of:

- The Net Asset Value per Share of the relevant Class being the Subscription Price at which Shares of the Class was issued on the launch of the Sub Class; and

- The Net Asset Value per Share of the relevant Class at the end of the immediately preceding Valuation Day, on which a performance fee was charged.

Each time the Fund outperforms, the outperformance is locked in favour of the Investment Manager. Whenever a positive outperformance level, previously reached, is not achieved thereafter, a High Water Mark Net Asset Value per Share is memorised for the purpose of the performance fee calculation.

In case a performance fee has not been paid for a 3 year period, a reset will be done at the year end of the third year, in order to define the High Water Mark as the Net Asset Value per Share of the relevant Class at the end of the year.

Since the performance fees are calculated, accrued and locked on each valuation day and paid annually it is possible that the value of the Shares of Shareholders may reflect performance fees accrued during a part of a year even though they may incur overall losses during such year as a result of the time at which they subscribe or redeem Shares.
