

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Danske Invest SICAV

Euro Sustainable High Yield Bond Class A d (LU1204911728)

This fund is managed by Danske Invest Management A/S, a subsidiary of Danske Bank A/S.

Objectives and investment policy

Objectives

The objective of this fund is to achieve above-market performance. Dividends are normally distributed to investors each year.

Investment policy

The fund invests mainly in below investment grade (high yield) corporate bonds from anywhere in the world, including emerging markets, that are denominated in Euro (EUR) and issued by companies that have a positive or an improving Environment, Social and Governance (ESG) profile.

Specifically, the fund invests at least two-thirds of net assets in bonds and other debt instruments that are traded on a regulated market and are denominated in EUR. While the fund invests mainly in below investment grade bonds, it may invest up to 50% of net assets in bonds with a minimum rating of Baa3/BBB- (or similar).

In addition to the sustainable investment policy that applies to all funds in the SICAV, this fund seeks to minimise or avoid exposure to companies whose revenues mainly originate from sectors such as controversial weapons, tobacco, alcohol, pornography, fossil fuels and gambling.

In actively managing the fund's portfolio, the management team selects securities that appear to offer superior investment characteristics, using both financial and ESG criteria to assess risks and opportunities. The fund generally expects that its holdings, and therefore its performance, may differ significantly from those of the benchmark.

The fund may use derivatives for hedging and efficient portfolio management, as well as for investment purposes.

The total duration, including cash, is the benchmark duration plus/minus 2 years. The duration indicates among others the price risk of the bonds in which the fund invests. The lower the duration, the more price stable the bonds, if interest rates change.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 3 years.

Benchmark (for performance comparison and duration management)

Bloomberg-Barclays Capital Euro High Yield 3% Issuer Capped Index in EUR.

Risk and reward profile

The fund is categorized as 3. The indicator illustrates the typical correlation between the risk and your potential return of the investment. The categorization is determined by the fluctuations in the fund's net asset value over the past five years and/or representative data.

Significant historical volatility equals high risk and low volatility equals

lower risk. Please note that the fund's categorization is not constant and the categorization may change over time. Historical performance data is not necessarily a reliable indicator of the future risk profile.

The risk indicator is purely a mathematical calculation and it does not take devaluations, political intervention and sudden fluctuations in interest rates and currencies into account. Risk class 1 is not a risk-free investment.

The principal risks of the fund are interest rate risk, credit risk, market risk and derivative risk. Changes in interest rates will affect the fixed income investments.

For further details about risk, please refer to the following section in the fund's prospectus: "Risk Descriptions".

Charges

The charges you pay are used to cover the costs of running the fund, including marketing costs and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge 1)	2.00%
Exit charge 2)	0.00%
1) This is the maximum that might be taken out of your money before it is invested. 2) This is the maximum that might be taken out of your money before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charge	1.27%
Charges taken from the fund under certain specific conditions	
Performance fee	0% (the fund is not charged a performance fee).

The ongoing charges are based on the previous year's expenses. The figure may vary from year to year.

The ongoing charges excludes performance related fees and transaction costs including brokerage fees and bank charges on securities transactions.

The entry and exit charges shown are maximum figures. In some

cases you may pay less. For further details please consult your financial adviser or distributor.

In addition, a conversion fee may be charged in relation to conversions as described in the prospectus.

For more information about charges, please refer to the following section in the fund's prospectus: "Fund Fees and Costs".

Past performance

Launch date

16 June, 2015.

Calculation method

Below is shown the fund's and any benchmark's annual returns in percent including dividends if any. Performance is shown after

deduction of ongoing charges. Any entry/exit charges are excluded from the calculation. Past performance has been calculated in: EUR.

Disclaimer

Past performance is not a reliable indicator of future results.
