Class of Pacific incl. Canada ex. Japan Restricted - Accumulating KL

This fund is managed by Danske Invest Management A/S, a subsidiary of Danske Bank A/S.

Objectives and investment policy

Objectives

The objective of this fund is to generate a return at least equal to the return on equities in the Pacific region incl. Canada excluding Japan. The fund is accumulating.

Investment policy

The fund invests in equities in the Pacific region incl. Canada excluding Japan. The investment strategy is passive, i.e. index-based. This means that the investments in the portfolio reflects the fund's benchmark.

The fund adheres to the Responsible Investment Policy of Danske Invest and restricts certain sectors and companies from its investment universe.

There may be investments that are not included in the index. As an investor you can expect that the return in general corresponds to the development in the benchmark. The return will typically be slightly

lower than the development in the fund's benchmark due to charges. The investments in the fund are subject to certain ethical restrictions. Currency risk is not hedged and fluctuations in exchange rates may affect the return.

Subscription is only possible for investors with a portfolio management agreement with Danske Bank or other distributor as described in the prospectus.

Fund units can normally be redeemed on banking days.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

The fund is categorized as 6. The indicator illustrates the typical correlation between the risk and your potential return of the investment. The categorization is determined by the fluctuations in the fund's net asset value over the past five years and/or representative data.

Significant historical volatility equals high risk and low volatility equals

lower risk. Please note that the fund's categorization is not constant and the categorization may change over time. Historical performance data is not necessarily a reliable indicator of the future risk profile.

The risk indicator is purely a mathematical calculation and it does not take devaluations, political intervention and sudden fluctuations in interest rates and currencies into account. Risk class 1 is not a risk-free investment.

The principal risks of the fund are equity risk, market risk and exchange rate. As the fund will invest its assets in the equity markets, the value of the fund may fluctuate according to market conditions.

For further details about risk, please refer to the following section in the fund's prospectus: "Sub-fund/unit class risks".

Charges

The charges you pay are used to cover the costs of running the fund, including marketing costs and distribution. These charges reduce the potential growth of your investment.

| One-off charges taken before or after you invest | |
|--|---|
| Entry charge 1) | 0.12% |
| Exit charge 2) | 0.12% |
| 1) This is the maximum that might be taken out of your money before it is invested. 2) This is the maximum that might be taken out of your money before the proceeds of your investment are paid out. | |
| Charges taken from the fund over a year | |
| Ongoing charge | 0.30% |
| Charges taken from the fund under certain specific conditions | |
| Performance fee | 0% (the fund is not charged a performance fee). |

The ongoing charges are based on the previous year's expenses. The figure may vary from year to year.

The entry and exit charges shown are maximum figures. The charges cover the fund's expenses in connection with increase/decrease in unitholders. In some cases you may pay less. For further details please consult your financial adviser or

distributor.

For more information about charges, please refer to the following section in the fund's prospectus: "Subscription price", "Negotiability and redemption" and "Operation, business partners and current costs".
