Danske Invest SICAV

Global Sustainable Future Class A (LU0117088970)

Class of Global Sustainable Future

This fund is managed by Danske Invest Management A/S, a subsidiary of Danske Bank A/S.

Objectives and investment policy

Objectives
The objective of this fund is to achieve above-market performance and contribute positively to one or more UN Sustainable Development Goals. The share class is accumulating.

Investment policy
The fund invests mainly in equities from anywhere in the world that are expected to contribute to, or benefit from, the transition to a sustainable future and circular economy.

The fund is categorised as article 9 under SFDR and has a sustainable investment objective. In addition, the fund also promotes environmental and/or social characteristics through screening, restrictions, investment analysis and decision-making, as well as active ownership. The fund follows Danske Invest's responsible investment policy.

In actively managing the fund's portfolio, the management team selects securities that appear to offer superior investment characteristics.

The fund generally expects that its holdings, and therefore its performance, may differ significantly from those of the benchmark.

The fund may use derivatives for hedging and efficient portfolio management.

The fund may invest in Chinese A-shares subject to quota and operational constraints, which may increase legal and counterparty risk.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Benchmark (for performance comparison)
MSCI World Index (net dividends reinvested).

Risk and reward profile

Lower risk						Higher risk
Typically lower return						Typically higher return
1	2	3	4	5	**6**	7

The fund is categorized as 6. The indicator illustrates the typical correlation between the risk and your potential return of the investment. The categorization is determined by the fluctuations in the fund's net asset value over the past five years and/or representative data.

Significant historical volatility equals high risk and low volatility equals lower risk. Please note that the fund's categorization is not constant and the categorization may change over time. Historical performance data is not necessarily a reliable indicator of the future risk profile.

The risk indicator is purely a mathematical calculation and it does not take devaluations, political intervention and sudden fluctuations in interest rates and currencies into account. Risk class 1 is not a risk-free investment.

The principal risks of the fund are equity risk, market risk and exchange rate risk. As the fund will invest its assets in the equity markets, the value of the fund may fluctuate according to market conditions.

For further details about risk, please refer to the following section in the fund's prospectus: "Risk Descriptions".
