

Objectives and investment policy**Objectives**

The objective of this fund is to achieve above-market performance in the long term compared to a broad selection of bonds denominated in euro. The share class is accumulating.

Investment policy

The fund is actively managed, and the allocation between equities and bonds depends on our expectations to the market development. In addition, we take the overall risk in the portfolio into account. All investments can be placed in one asset type.

The fund is categorized under SFDR as article 8 and promotes environmental and/or social characteristics, as well as good governance practices, through screening, restrictions, investment analysis and decision-making as well as active ownership. The fund follows Danske Invest's responsible investment policy. The fund has no benchmark as the fund's return is aggregated and measured for the investment product in which the fund is included. The fund's performance is measured against an indicative benchmark.

Subscription is only possible for investors with a portfolio management agreement with Danske Bank or other distributor as described in the prospectus.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Return in the period: 28.10.2020 - 30.04.2024

The default for the chart is the return for the past 5 years as of end of month or, if the fund is less than 5 years old, since launch. Past performance is not a reliable indicator of future results. Future returns may be negative. The return may increase and decrease as a result of currency fluctuations if the fund is issued in a currency other than the currency used in the country in which you are domiciled.
